

Regarding the use of the funds, I decided it was best to allocate them for both my personal needs and my family's. The money has been invaluable in various aspects of my life . Personally, I used the funds to purchase clothes, pay for outstanding bills and fees, including my prom ticket, graduation fees, and phone bills. Additionally, I have used the money to support my family with groceries. One significant purchase I made was a back brace for my mother. Her back health had been poor, and standing for long periods was challenging. Thanks to the back brace, she can now stand, walk, and dance almost like she used to.

I am eternally grateful for the assistance your program has provided. Your generosity is truly commendable, and you are making a profound impact by paying it forward and supporting the community. As evidenced by my experience, your program has significantly improved my life. I am confident that many others have benefited similarly.

I would also like to humbly request that you continue your benevolent work by offering scholarships and bursaries to students at my school in the future. They would undoubtedly be equally, if not more, grateful for your patronage and might find even more impactful ways to use the funds.
